Stem Cell Pro

A Personal Message from Dr. Trevor Ferguson

Hello Neighbor,

I'm Dr. Trevor Ferguson. My wife, Sheree, and I have been married for 25 years. We married young — at age 22 — and somehow she's still putting up with me. We have four boys who keep life interesting, and when I'm not in the clinic, you'll often find me on a golf course. In fact, The Villages® Community is one of my favorite places to play.

I'd like to share a story that changed the course of my medical career.

My father had suffered from knee pain for nearly 40 years after a football injury in high school. Eventually, he was told that double knee replacement surgery was his only option.

Both his son and his physician, I asked him to consider stem cell therapy before moving forward with surgery. He agreed.

A few weeks after treatment, I visited him. He stood up from his recliner, walked the room without limping, and said he didn't have any pain.

For the first time in decades, he was moving comfortably.

Watching that transformation was a powerful moment for me.

It reinforced my belief that regenerative medicine can offer hope to people looking for alternatives before considering major surgery.

That's why I founded the **Stem Cell Price Club**.

Our mission is simple: make regenerative medicine more accessible to people who need it but believe cost should prevent them from exploring whether treatment may be an option for them.

If you're dealing with knee pain, arthritis, or other orthopedic conditions, and would like to learn more, I'd like to invite you to attend one of our free Learn Stem Cell seminars here in Lady Lake. You'll learn how regenerative medicine may be a candidate, and whether it could be appropriate for your situation.

I hope to meet you soon.

Stay inspired,

Dr. Trevor Ferguson

Great Lakes Communities

You've spent a lifetime building something worth protecting, but ask yourself...
If something happened tomorrow, would your family know what to do?

Take Control of Your Future - Starting Today!

The time to act is NOW - before a health crisis, family conflict, or a court decides what happens to everything you've built.

Join us for a ***FREE****, no-obligation seminar and leave with a clear plan to protect your family, your assets, and your independence*

Discover How To
- Choose the Right Plan - Will or Trust - and Why it Matters
- Learn Ways to Protect Assets from Long-Term Care Costs Before it's Too Late
- Lock in Your Children's Inheritance - Safe from Divorce, Lawsuits & Taxes
- Guarantee Your Bills Get Paid - Even if You Can't Pay Them Yourself

What You Will Learn
1. The true costs of having NO estate plan - and who really decides what happens to your assets
2. Ways to pay for long-term care and not go broke.
3. Strategies to protect your children's inheritance from divorce, lawsuits, & other risks.
4. Essential steps to maintain your independence and financial security in retirement.
